

Checklist for Lithionator Batteries

Voltages:

Nominal voltage**	V		*
Lower voltage limit	V		
Upper voltage limit	V		

Discharge

Constant current** (either current or power)	A	
Constant power** (either power or current)	W	
Discharge time**	h	
Discharge profile (provide an attachment)		
Temperature (if outside -20° C to 50° C)	° C to	° C

Charge

Desired recharge time (if applicable)	h		*
Available charge current (if applicable)	A		
Temperature (if outside -10° C to 50° C)	° C to	° C	

Application** (one must be tagged)

- Mobility Aid
- Cleaning Machine
- Marine (Boat)
- Telecom
- UPS
- Propulsion
- Others (please provide an explanation)

Dimensions

Desired length	mm		*
Desired width	mm		
Desired height	mm		
Desired weight	kg		

Others

** Mandatory * Column is for your comments
